PRORATED BASIS, REGISTRATION REQUIRED FOR FULL TERM COVERAGE

Buyer must register their own Battery at ecobattery.com/s/warranty-registration in order to receive full warranty coverage. Any Battery not registered within 90-days from date of purchase shall be covered by the conditions of this Limited Warranty for a period of one (1) year from date of purchase shown on proof of purchase, and not the above referenced 8-year term.

All registered Batteries meeting the above Limited Warranty requirements shall be covered by a free credit, replacement or repair for a period of thirty-six (36) months from date of purchase. After the initial thirty-six (36) month period, all registered Batteries meeting the above Limited Warranty requirements shall be covered on a prorated basis beginning from the date of purchase.

Within the first thirty-six (36) months of the Warranty Period, subject to the exclusions listed above, if the Battery is determined to be defective in material or workmanship, Eco Battery will, at its own discretion, credit, replace or repair the Battery and/or parts of the Battery. After thirty- six (36) months, if the Battery is determined to be defective in material or workmanship,

Eco Battery will, at its own discretion, repair or replace the Battery on a prorated basis (as further described below), starting from date of purchase. After thirty-six (36) months, the Limited Warranty shall be prorated using the following formula: (original purchase price x months since original purchase) / 96 = buyer's payment for repair or replacement of the Battery. The following table will serve as an example of the application of the formula above and will help the buyer understand its financial responsibility for repairs or replacement of a Battery after the initial thirty-six (36) month period:

Original Purchase Price	Months Since Original Purchase	Total Warranty Term	Buyer's Responsibility for Repair or Replacement
\$2,500	<36	96	\$0.00
\$2,500	46	96	\$1,198
\$2,500	61	96	\$1,589
\$2,500	79	96	\$2,057
\$2,500	93	96	\$2,422
\$2,500	>96	96	\$2,500

Buyer shall pay to Eco Battery the corresponding amount for which buyer is responsible, as provided using the formula above, for any requested repair or replacement after the first thirty-six (36) months of the Warranty Period.

Return Shipping

In the event buyer's Battery needs to be returned to Eco Battery for any reason, it must be shipped in a lithium ion UN approved shipping box. If buyer did not save the original packaging, Eco Battery will need to send buyer packaging to return the Battery. The cost of this service for batteries weighing up to 79 lbs. will be \$25 plus the actual shipping charges to the destination. For batteries weighing more than 79 lbs., buyer will need to contact Eco Battery for a box and shipping quote.

The cost of shipping and packaging to send the Battery to Eco Battery for warranty evaluation shall be the sole responsibility of the buyer. Any Battery deemed defective in material or workmanship shall, subject to buyer's election to have it repaired or replaced and buyer's payment of any amounts owed to ECO Battery as provided above, be repaired or replaced, and returned to the buyer with Eco Battery paying the cost of shipping.

Eco Battery recommends buyer fully insure any return shipment in case of loss or damage in transit. Buyer shall use a carrier that can provide buyer with tracking numbers and proof of delivery.

If buyer needs assistance with shipping a Battery to Eco Battery for warranty evaluation, Eco Battery may require a deposit of \$350 to cover the cost of return shipping and diagnosis. Any shipment which arrives damaged or without a Return Merchandise Authorization (“**RMA**”) will be refused or held at the warehouse until buyer pays for return shipping or files an insurance claim.
